SAFETY DATA SHEET

AeKomala · Cationic softener for textile finishing

1 IDENTIFICATION OF THE SUBSTANCE AND OF THE COMPANY

Product name	**AeKomala**
Product type	Cationic softener (textile auxiliary)
Chemical family	Fatty amidoamine condensation product, aqueous paste
Identified use	Softening finish of textiles by padding or exhaustion. Industrial use only.
Uses advised against	Domestic or consumer use. Any application outside textile finishing.
Supplier	Aeva Chemicals 13-A Laxmi Industrial Estate, Andheri (W) Mumbai 400 053, Maharashtra, India
Telephone	+91 98205 28708
E-mail	info@aevachemicals.com
Emergency telephone	+91 98205 28708 (office hours, Monday to Saturday)

2 HAZARD IDENTIFICATION

GHS classification	Assessed as not meeting the criteria for classification under the Globally Harmonised System. Not a hazardous substance or mixture.
Signal word	None
Hazard pictograms	None
Hazard statements	None
Precautionary statements	None required. General industrial hygiene applies — see Sections 7 and 8.
Other hazards	Spilt product makes floors extremely slippery. Not assessed as PBT or vPvB.

3 COMPOSITION / INFORMATION ON INGREDIENTS

Chemical nature: aqueous preparation of a cationic fatty amidoamine condensation product.

The product contains no ingredients classified as hazardous above the applicable cut-off concentrations. The detailed formulation is proprietary and is withheld as a trade secret in accordance with normal commercial practice.

4 FIRST-AID MEASURES

Inhalation	Not an expected route of exposure. If mist is inhaled, move the person to fresh air. Obtain medical attention if discomfort persists.
Skin contact	Wash with plenty of water and soap. Remove contaminated clothing. Obtain medical attention if irritation develops.
Eye contact	Rinse immediately with plenty of water for at least 15 minutes, holding the eyelids apart. Remove contact lenses if present and easy to do. Obtain medical attention if irritation persists.
Ingestion	Do not induce vomiting. Rinse the mouth with water. If the person is conscious, give water to drink. Obtain medical attention.
Symptoms	None expected under normal handling. Direct contact with the eyes may cause irritation.
Note to physician	Treat symptomatically.

5 FIRE-FIGHTING MEASURES

Suitable extinguishing media	Water spray, foam, dry chemical powder, carbon dioxide. The product is water-based and does not burn as supplied.
Unsuitable media	None known.
Specific hazards	Not flammable. If the water evaporates in a fire, the residue may burn and give off oxides of carbon and nitrogen.
Protection for firefighters	Self-contained breathing apparatus and full protective clothing in a general fire.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions	Wear gloves and eye protection. Warn others — spilt product makes the floor extremely slippery.
Environmental precautions	Prevent entry into drains, surface water and groundwater. Contain the spill.
Containment and cleaning	Scrape up the paste or contain it with sand, earth or other inert absorbent, and collect it into labelled containers for disposal. Wash the residue away with plenty of water. Do not discharge undiluted product to the effluent system.

7 HANDLING AND STORAGE

Handling	Ensure good general ventilation. Avoid contact with the eyes and prolonged contact with the skin. Keep containers closed when not in use. Do not eat, drink or smoke in the handling area.
Storage	Store in the original closed container at room temperature, away from direct sunlight and from frost.
Shelf life	12 months from the date of manufacture in unopened original packing.
Packing	50 kg and 200 kg plastic drums.
Incompatible materials	See Section 10.

8 EXPOSURE CONTROLS / PERSONAL PROTECTION

Occupational exposure limits	None assigned for the product.
Engineering controls	General room ventilation is normally sufficient. An eyewash facility and a safety shower should be available in the handling area.
Eye protection	Safety goggles or a face shield when preparing the stock dilution or dosing.
Skin protection	Rubber or nitrile gloves. Chemical-resistant apron where splashing is likely.
Respiratory protection	Not normally required. Use a mist respirator if the product is sprayed.
Hygiene measures	Wash hands after handling. Remove and wash contaminated clothing before reuse.

9 PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Pale yellow paste
Physical state	Paste
Odour	Faint, characteristic
Odour threshold	No data available
pH	4 – 6
Ionic character	Cationic
Density	0.95 – 1.1 g/cm³
Solubility in water	Dispersible
Initial boiling point	Approximately 100 °C (water-based)

Melting / freezing point	No data available
Flash point	Not applicable — aqueous, non-flammable
Flammability	Not flammable
Auto-ignition temperature	Not applicable
Decomposition temperature	No data available
Vapour pressure	No data available
Evaporation rate	No data available
Viscosity	No data available
Partition coefficient n-octanol/water	No data available
Explosive properties	None
Oxidising properties	None

10 STABILITY AND REACTIVITY

Reactivity	Not reactive under normal conditions of use.
Chemical stability	Stable under the recommended storage conditions.
Hazardous reactions	None known.
Conditions to avoid	Freezing. Prolonged exposure to direct sunlight or to temperatures above 50 °C.
Incompatible materials	Strong oxidising agents and strong alkalis. Anionic surfactants and other anionic auxiliaries — these may cause precipitation and loss of performance.
Hazardous decomposition products	None under normal conditions. Thermal decomposition may give oxides of carbon and nitrogen.

11 TOXICOLOGICAL INFORMATION

No toxicological testing has been carried out on the mixture. The entries below are based on the nature of the components and on experience in handling the product.

Acute oral toxicity	No data available on the mixture
Acute dermal toxicity	No data available on the mixture
Acute inhalation toxicity	No data available on the mixture
Skin corrosion / irritation	Not expected to be irritating under normal use. Prolonged or repeated contact may cause mild irritation.
Serious eye damage / irritation	Direct contact may cause irritation.
Respiratory or skin sensitisation	No data available
Germ cell mutagenicity	No data available
Carcinogenicity	No data available. No component is listed as a carcinogen by IARC.
Reproductive toxicity	No data available
Specific target organ toxicity	No data available
Aspiration hazard	Not applicable

12 ECOLOGICAL INFORMATION

Aquatic toxicity	No data available on the mixture
Persistence and degradability	No data available on the mixture
Bioaccumulative potential	No data available

Mobility in soil	Being cationic, the product is expected to bind to soil, sediment and sewage sludge.
Other adverse effects	None known. Do not discharge undiluted product to watercourses or to the effluent system without treatment.

13 DISPOSAL CONSIDERATIONS

Product	Dispose of in accordance with local and national regulations. Do not discharge undiluted product to drains. Treat at an authorised effluent treatment facility or incinerate through an authorised handler.
Contaminated packaging	Empty drums retain residue. Rinse thoroughly with water before disposal or recycling and dispose of through an authorised handler. Do not reuse empty containers for food or drinking water.

14 TRANSPORT INFORMATION

Not classified as dangerous goods for transport by road, sea or air.

UN number	Not applicable
Proper shipping name	Not regulated
Transport hazard class	Not applicable
Packing group	Not applicable
Marine pollutant	No
Applicable regulations	Assessed against IMDG, IATA-DGR and the Central Motor Vehicles Rules.

15 REGULATORY INFORMATION

India	The product is not listed as a hazardous chemical under the Manufacture, Storage and Import of Hazardous Chemical Rules, 1989 as amended. Handling and storage should comply with the Factories Act, 1948 and the rules made under it.
Format	This safety data sheet has been prepared in accordance with the Globally Harmonised System of Classification and Labelling of Chemicals.
Restricted substances	Free from APEO and formaldehyde. A restricted-substance declaration is available on request.

16 OTHER INFORMATION

Revision	1.0
Date of issue	10 October 2026
Supersedes	Not applicable — first issue
Reason for revision	First issue
Prepared by	Technical Department, Aeva Chemicals
Related documents	AeKomala Technical Data Sheet
Abbreviations	GHS — Globally Harmonised System. PBT — persistent, bioaccumulative and toxic. vPvB — very persistent, very bioaccumulative. APEO — alkylphenol ethoxylates. IARC — International Agency for Research on Cancer. IMDG — International Maritime Dangerous Goods Code. IATA-DGR — IATA Dangerous Goods Regulations.
Disclaimer	The information in this sheet relates only to the product named and is based on the data available at the date of issue. It is given in good faith and does not constitute a specification or a warranty of properties. It is the user's responsibility to satisfy themselves that the product is suitable for their process and to comply with all applicable law.
